Department to suggest on how to take the reform forward. Query sent to DPIIT.

Department for Promotion of Industry and Internal Trade (DPIIT), GoI has recently introducing BRAP Plus (BRAP+), a strategic initiative that addresses the need to eliminate certain reforms, integrate necessary modifications, and resolve targeted industry pain points to further enhance the ease of doing business. BRAP+ will introduce 70 new reforms across 10 reform areas. Additionally, it will remove 14 reforms from BRAP 2024, assigning them NA2 status for states and UTs. The BRAP+

reforms are specifically designed for states and UTs, complementing Part B of the original reforms. Consequently, the BRAP 2024 assessment cycle will now encompass a total of 344 reforms, which includes the original 287 reforms, the 14 deletions, and the 70 additions.

The key highlights of BRAP+ 2024 applicable for DISH under Reform nos. 356 - Transitioning to a self-certification and third-party ecosystem for low and medium-risk inspections to reduce regulatory burdens.

After due discussions and deliberations the following decisions are taken:

Self-Declaration:

Under BRAP+ 2024, reforms 356 promote transitioning to self-certification and a third-party inspection ecosystem for low and medium-risk entities, reducing regulatory burdens. Aligning with this initiative, the DISH department allows factory owners to obtain a 'conditional license' for registering non-hazardous factories. This process eliminates site visits by officers, relying instead on declarations provided by factory owners.

Third party eco-system:

DISH department has authorized third-party personnel for specific activities, including:

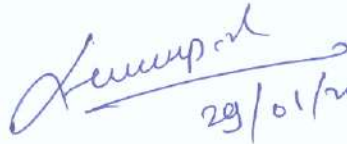

Third party	Activity
Competent Person	<ol style="list-style-type: none"> 1. Testing of lifting machines (Form 11) 2. Testing of pressure vessels/plants (Form 13). 3. Testing of reactors 4. Testing of Power press machines
Authorised Auditors	To carry out external safety audits

(C) Implementation of Business Reforms Action Plan (BRAP) PLUS 2024 – Reform no 357

7 R-357	Labour DISH, LM Boilers, MPCB	Area: Self-certification and Third-party Ecosystem Sub: Transition low-risk inspections to self-certification & medium-risk inspections to third-party certification Reform: Ensure list of Third-party agencies responsible for sectoral approvals/compliances are available on the Single Window system and updated regularly.	<ul style="list-style-type: none"> • Notification to be published • Department to suggest on how to take the reform forward. • Query sent to DPIIT.

- At present, the list of competent persons and authorized safety auditors is made available at website and is being updated regularly. The safety audit report, along with compliance points, is uploaded online by an authorized auditor. Additionally, industries have the provision to upload their compliance reports on the same portal.

- The inspections conducted by the officers fall under the purview of the Factories Act, 1948, a central government legislation, and therefore cannot be reduced. However, the DISH department has taken significant steps to digitize the entire inspection process. The key highlights are as follows:
 - Inspections are assigned to inspectors randomly through the CIS portal.
 - Inspection reports must be submitted online within 48 hours.
 - Industries have the provision to upload compliance reports for inspection points online.
