Directorate of Municipal Administration,
Government Transportation Services Building,
3rd floor, Sir pochkhanwala Marg,
Worli, Mumbai-400030.

04 JUN 2019

To,

Hon. Commissioner, Municipal Corporation All,
Chief Officers, Municipal Councils / Municipal Panchayats All

Subject : Publicity for the services offered in accordance with Ease of
Doing Business (EoDB)

Reference : Letter from this office DMA / 2019 / EoDB / Desk-8/1640
Dated.03 / 05/2019.

Ease of Doing Buisness is a very important project of the Central Government. This project is implemented by the Industrial Policy and Promotion Department of the Union Ministry of Commerce and Industry. The Development Commissioner (Department of Industry) is the coordinating officer for the entire State for all the departments related to the Ease of Doing Buisness of Maharashtra. Also the Commissioner and Director, Directorate of Municipal Administration (UD-2) is the coordinating officer for the municipal corporations, municipal councils and municipal panchayats in the state.

Following are the key issues of various reforms and implementation of the Urban Development Department pursuant to the Ease of Doing Business:

1. To facilitate online payment of property tax levied in all civic bodies in the State.
2. To facilitate online payment of water tax to be charged in all the civic bodies in the state.
3. Provide an online tax calculator to estimate property taxes to be paid based on the type of property used in a city (domestic, commercial, etc.), construction type (load bearing, high RCC etc.) and area.
4. To disclose information about various taxes, fees, etc. levied by the civic bodies in the state, and to publish the information about the water taxes to be levied by the civic bodies in the state.
5. Facilitate online application for new tap connection.
6. Provide the facility to apply for a business license online

The ranking of states in Ease of Doing Business will be determined at the national level on how much the general public is benefiting from the above online services. Accordingly, the services offered under Ease of Doing Business need to be widely publicized. For this, you should display the online services offered under Ease of Doing Business and where they are available. Also, this service should be widely publicized in newspapers and other means So that more and more citizens can avail these online services and benefit the state in Ease of Doing Business. Also, you should stop accepting applications for offline services.

With the approval of the Hon.Commissioner and Director

(Bhalchandra Behre)

Deputy director

Directorate of Municipal Administration
