

PRATISHTAN FORGING CLUSTER FOUNDATION

(A Project Under MSICDP, Govt. of Maharashtra)

CORPORATE PROFILE

Incorporated in 2018, Headquartered at Aurangabad, Maharashtra, Pratishtan is primarily engaged in providing Best In Class facilities in Drawing, Parting, Cold Forging and Testing Facilities through its members to leading Automotive and Auto-Component manufacturing companies in Aurangabad.

Being located strategically in the historic city of Aurangabad which has transformed itself into Automotive-Hub, Pratishtan is considered to be the most reliable facility provider to all the Automotive and Auto-Component manufacturers in the vicinity of Aurangabad district.

Strong In-House Service facility spread across 1 acre of land with present installed capacity to provide service critical and precision products thereby providing much required and timely services to Auto Component and Oil & Gas industries.

Pratishtan Auto Cluster serves itself as a "Special Purpose Vehicle", a company limited by shares having membership consent from no's of Units operating in and around Aurangabad.

Pratishtan is into service provider of Cold & warm forged components. The primary advantage of cold forging is the material saving achieved through precise shape, that requires little finishing with no shrinkage and scaling thereby ensuring better control on the process and product quality. With regards to Cold & Warm Forging Technology, Pratishtan has upgraded its technology to work with a variety of raw materials, parts of varying sizes and complexities and modern processes and automation.

To maintain its high quality standards, Pratishtan has state-of-art laboratories that offer metallurgical and metrological testing capabilities for raw material, in-process, and finished components. A team of competent technicians enables maintaining consistent quality every time a product or service is delivered.

Successfully catering to leading industries viz. Automobile & ancillaries, Oil & Gas and General Purpose Engineering Strong presence across Aurangabad District engaged indirectly into Exports and is in process of expanding its services to Automotive industry across India. Employee strength of 30+

Pratishtan offers itself as a partner who understands your problems and who possesses the necessary know-how to supply effective solutions. Up-to-date production methods, exchange of critical applications and detailed analysis of customer requirements allow us to maintain the highest quality standard we offer.

PRATISHTAN - INFRASTRUCTURE & FACILITIES AT A GLANCE

DRAWING

- ◆ 8mm to 20mm Coil Draw Machine
- ◆ 20mm to 65mm Round Bar Draw Machine
- ◆ 8mm to 32mm Round Bar Draw Machine

PARTING

- ◆ 10mm to 50mm Carbide Circular Saw Machine
- ◆ 20mm to 80mm Carbide Circular Saw Machine
- ◆ 210mm Automatic Band-Saw Machine
- ◆ Manual Band Saw Machine

FORGING

- ◆ Knuckle Joint Press (400 & 630 Ton)
- ◆ Hydraulic Press (200, 300 & 500 Ton)
- ◆ Power Press (50 & 100 Ton)
- ◆ Milling DRO, Cylindrical Grinding Machine
- ◆ Surface Grinder, Lapping & Polishing

TESTING

- ◆ Profile Projector
- ◆ Bevel Projector
- ◆ Hardness Tester
- ◆ Complete Testing Equipments
